

## McClelland Hall Donor Funded Tech Upgrades

### Eller IT Supported Classrooms

#### Muzzy Lab (113)

- Added a ceiling microphone system so both instructor and on-ground participants can be heard by remote participants over Zoom.
- Added an adjustable camera so the instructor can be captured over Zoom, allowing a tight or wide view of the instructor.

#### 120

- Added a ceiling microphone system so both instructor and on-ground participants can be heard by remote participants over Zoom.
- Added an adjustable camera so the instructor can be captured over Zoom, allowing a tight or wide view of the instructor.
- *Pending*: add a second monitor to the teaching console so instructor can display a gallery view of remote participants over Zoom, as well as capture chat comments.

#### Salter and Hagenah Seminar Rooms (201A and B)

- *Pending*: add an adjustable camera so the instructor can be captured over Zoom, allowing a tight or wide view of the instructor.
- *Pending*: add a second monitor to the teaching console so instructor can display a gallery view of remote participants over Zoom, as well as capture chat comments.

#### Soldwedel Family Classroom (208A)

- *Pending*: add a second monitor to the teaching console so instructor can display a gallery view of remote participants over Zoom, as well as capture chat comments.

#### Nunamaker Collaborative Classroom (214)

- *Pending*: add a tracking camera facing the instructor, so instructor will have the freedom to move back and forth at the front of the classroom while still being captured over Zoom.
- Reinstall the PanaCast camera facing the on-ground classroom, allowing remote participants to see classroom participants over Zoom.
- *Pending*: add a second monitor to the teaching console so instructor can display a gallery view of remote participants over Zoom, as well as capture chat comments.

THE UNIVERSITY OF ARIZONA

## Eller College of Management

### Eller IT Supported Seminar Rooms

#### **Dhaliwhal-Reidy Seminar Room**

- Added a ceiling microphone system so both instructor and on-ground participants can be heard by remote participants over Zoom.
- Added an adjustable camera so the instructor can be captured over Zoom, allowing a tight or wide view of the instructor.

#### **Finance Seminar Room**

- Added a ceiling microphone system so both instructor and on-ground participants can be heard by remote participants over Zoom.
- Added an adjustable camera so the instructor can be captured over Zoom, allowing a tight or wide view of the instructor.
- Added keypad to easily modify inputs.

#### **Marketing Seminar Room**

- Added a ceiling microphone system so both instructor and on-ground participants can be heard by remote participants over Zoom.
- Added an adjustable camera so the instructor can be captured over Zoom, allowing a tight or wide view of the instructor
- Added 70" monitor in front of room.
- Added monitor at back of the room to allow instructor to display a Zoom gallery view of remote participants.
- Added keypad to easily modify inputs.

#### **Economics Seminar Room**

- Added a ceiling microphone system so both instructor and on-ground participants can be heard by remote participants over Zoom.
- Added an adjustable camera so the instructor can be captured over Zoom, allowing a tight or wide view of the instructor.
- Added Kaptivo camera above existing whiteboard, which allows content written on the whiteboard to be captured and shared electronically over Zoom.
- Added new document camera.

#### **Management and Organizations Seminar Rooms**

- Added a ceiling microphone system so both instructor and on-ground participants can be heard by remote participants over Zoom.
- Added an adjustable camera so the instructor can be captured over Zoom, allowing a tight or wide view of the instructor.

THE UNIVERSITY OF ARIZONA

## Eller College of Management

### **MIS Seminar Room**

- Added a ceiling microphone system so both instructor and students can be heard by remote participants over Zoom.
- Added a PanaCast camera facing the on-ground participants, which will allow remote participants to see McClelland Hall participants over Zoom.

### **Eller IT Supported Conference Rooms**

#### **Marketing Conference Room**

- Added a tracking camera with soundbar that faces the participants in the room. This will allow remote Zoom participants to view and hear on-ground participants over Zoom.
- Added keypad to easily modify inputs.

#### **Finance Conference Room**

- Added a tracking camera with soundbar that faces the participants in the room. This will allow remote Zoom participants to view and hear on-ground participants over Zoom.

#### **MIS Conference Room**

- Added a tracking camera with soundbar that faces the participants in the room. This will allow remote Zoom participants to view and hear on-ground participants over Zoom.

#### **Dean's Office 411 Conference Room**

- Added 50" monitor.
- Added a tracking camera with soundbar that faces the participants in the room. This will allow remote Zoom participants to view and hear on-ground participants over Zoom.

### **McClelland Hall Centrally Scheduled Classrooms (CSC) supported by UITS CTS (Classroom Technology Services)**

#### **133 and 134**

- Added a second monitor at the teaching console so instructor can display additional teaching content, can see a gallery view of remote students, or view Zoom chat comments.
- Upgraded audio system, including addition of ceiling microphones and mixing equipment so both instructor and students can be heard by remote participants over Zoom.
- Added an adjustable camera to the back wall that can show a tight focus on the instructor, a wide view of the classroom including the instructor, or a tight view of the whiteboard.

THE UNIVERSITY OF ARIZONA

## Eller College of Management

- Added 86" monitor at the back of the classroom to allow instructors to display a Zoom gallery view of remote students.

### **Other McClelland CSC (118, 122, 123, 125, 126, 127, 128, 129, 130, 131, 132) – also supported by UITS CTS**

- Added a second monitor at the teaching console so instructor can display a gallery view of remote participants over Zoom, as well as capture Zoom chat comments.

### **McKeever Family Foundation Lab (218J)**

- Added a ceiling microphone system so both instructor and students can be heard by remote participants over Zoom.
- Added a wireless lapel microphone system for better capture of instructor-centric audio over Zoom.
- Adapted our existing document camera to be available as a camera input in Zoom meetings.
- Added a back-mounted PTZ camera as a Zoom source to capture a wider field of view of the instructor at the head of the classroom.
- Added a tablet to the teaching station so instructors have an out-of-band option for joining our Zoom Remote Support meetings.
- Currently investigating adding a front-of-room mounted PTZ camera so instructors could share a field of view of in-person students.
- Currently investigating adding back-of-room mounted monitors to allow for instructors to better see projected content and additional content, like a Zoom gallery view of remote students.
